

## Wanted Ads Activity Instructions

1. You will be using the information that you collected to write two wanted-ads, one for house representative and one for senator.
2. Both wanted-ads should include all the following elements: job title, location(s), length of contract, job description, qualifications, education/experience, starting salary, and benefits. Make sure to follow the rubric!
4. Fold one sheet of paper in half. Use the left portion to advertise for a senator and the right portion to advertise for a house representative. Do not hesitate to be creative and use colors!
5. Before you begin your final copies, I strongly advise you to complete a rough draft on notebook paper and have another student review for accuracy. Once the review process is complete, you may begin to work on your final copies.
